# City maps

## Marina of NEXCity – The latest expansion

## City of NEXCity – Entirely rebuilt

## NY Street – With the new NY Street Park

*Find from the maps your favorite location!*

## History of NEXCity

NEXCity started actually as a **build battle** between 2 friends. In fact, in the first version the 2 blue houses at the city center are the first 2 creations. Then one day they decided to build an entire city starting from these 2 houses. So they built the roads to the Diamond Shopping Center and the Town Hall, and they continued until they were satisfied, and released the city to the public with the name of NEXCity, that comes from NEX Channel. But it wasn't enough: to make it better and more popular it was time to update it and make it more modern. The best chance was doing it by destroying it (as happened in NEXCity 2.0), then make a new start (with NEXCity 3.0). NEXCity 4.0, 5.0 and X were instead continuous and progressive expansions, until NEXCity XI that combines an incredible new expansion with an overall city change.

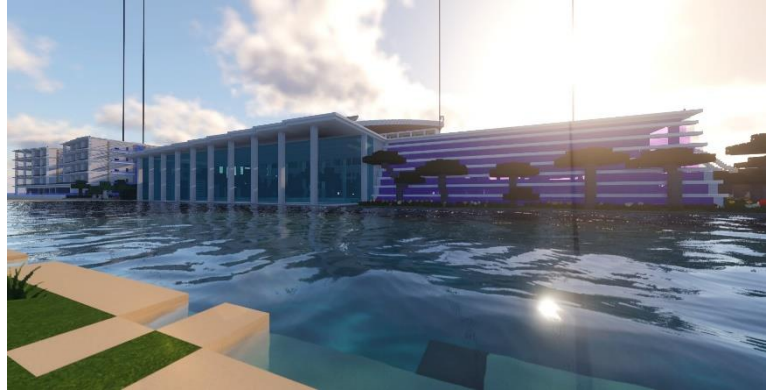

NEXCity 1.0 (upper) and NEXCity XI (bottom)

# The new Marina of NEXCity

The new **Marina of NEXCity** is the latest expansion that includes a whole new biome (forest) with a lake that enlarges at the end creating a “sea” with sand and palm trees that are perfect for a summer season.

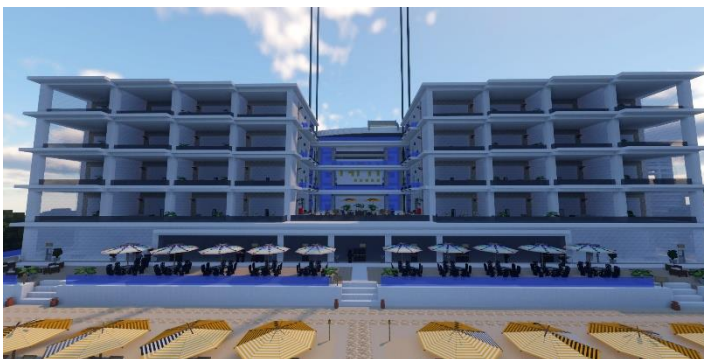

**NEXCity Palace Hotel** is the perfect place to accommodate during holidays, and the **Polifunctional Center** has everything you need during the permanency, without the need to go to the City.
