Installing the Map:

1.) Hold the windows key and press R.
2.) In the "Run" popup, type "%appdata%" (without the "") and hit enter.
3.) Double-click the ".minecraft" folder to open it.
4.) In a new file explorer window, find the map folder (labeled "Escape the Depths by epc1220") and drag it to the "saves" folder in the other window
5.) Make sure you install the resource pack (see below)
6.) Enjoy the map!

Installing the Custom Resource Pack:

1.) Repeat steps 1-3 in the "Installing the Map" section above.
2.) In a new file explorer window, find the resource pack folder (labeled "ETD_ResourcePack") and drag it to the "resourcepacks" folder in the other window
3.) Open minecraft, go to "Options..." -> "Resouce Packs..." and move the ETD_Resource_Pack folder from the "Avaiable" tab to the "Selected" tab.
4.) Enjoy the map!
